## **2.Trading monitoring**

2.1 We set and adjust the daily maximum limit of transaction and withdrawal amount according to the security and the actual transaction situation.

2.2 If the transaction is concentrated in a user or there is an unreasonable situation, our professional team will evaluate and decide if they are suspicious.

2.3 If we judge that it is a suspicious transaction, we may take restrictive measures such as suspending the transaction, rejecting the transaction, and even if it is possible to reverse the transaction as soon as possible, and report to the competent authority, but will not notify you.

2.4 We reserve the right to refuse applications from people who do not fit the international anti-money laundering standards or who can be considered as political public figures. We reserve the right to suspend or terminate the transaction based on our own judgment as suspicious transaction at any time, but we do not violate any of our obligations and responsibilities by taking these measures.

## **3.The reason for collecting information**

### 3.1 Provision and maintenance services

Use the collected information to maintain our service and authenticate the user. We use the IP address and unique identifier stored in your Cookie to verify your identity and provide services. Based on legal obligations and system requirements, we can not be able to provide services without identification, contact information and transaction-related information in such case.

### 3.2 Protect users

Use collected information to protect platforms, user accounts, and files.

Use IP addresses and cookie data to prevent attacks like spam, phishing, and distributed denial of service (DDoS).

Analysis of trading activities for early detection of fraud and money flowing into suspicious accounts.

### 3.3 Compliance with legal and regulatory requirements

Newdex bases on the principle of respecting the personal privacy and data security. When the government requires or user's general requests, we do not disclose or provide any personal information to a third party without the approval of the legal team and the consent of the user.

### 3.4 , Measuring website performance

We analyze the website data to understand the user's using experience better. The team of operation continues to analyze data to ensure the user experience is continuously optimized and that all problems in using are resolved in time.

### 3.5 Communication with users

For communicating with users directly , we collect personal information such as e-mail address, to help users solve problems, timely notification, transactions, and account security and other

to help users solve problems, timely notification, transactions, and account security and other related activities. We will not be able to respond to requests and questions submitted by users

without verifying their identities before communication. All communication will be properly kept in the Newdex for review of accuracy.

### 3.6 Enforcement of user agreement and other agreements

For Newdex and our users, it is important to keep reviewing to prevent potential irregularities. In order to protect the interests of users, we carefully and rigorously implement the agreement signed with the third party, and seriously investigate any violation of our terms of use behavior. Newdex reserves the right to provide services to any user who participates in activities violating the terms of use.

## **4.The protection of user data**

A number of security measures have been implemented in Newdex to ensure user's information safe, can not be misused, or tampered. Our data security measures include, but are not limited to: PCI scans, secure sockets layer cryptography, anonymity, internal data access restrictions, and strict office and file access restrictions. But the form of internet storage can not guarantee 100% information security. Therefore, we recommend that you should take independent security precautions to protect your personal information.
